Work experience:

2000 - present: Working for a drinking water company (Oasen N.V. in Gouda) as location manager.

In this job I take care of the quality and quantity of the drinking water with the help of an advanced SCADA / PLC system. Digitally filing process information from the SCADA system. Solving technical problems in the installation. Supervise contractors who do maintenance, modifications or repairs. Switching off electrical system for contractors and taking all safety measures. Handing out and checking work permits. Managing of documents from several locations in the Livelink system. I also give tours and presentations to visitors.

1997 - 2000: Edutec in Streefkerk. Employed as a electrical technician. Developing, building or repairing products for technical education. Writing of PLC programs for PLC driven educational products. Edutec produces and sells: v/d Perk, Clemenz and the Teach-Robot.

1992 - 1997: Municipality Utility Ridderkerk. Employed as a electrical engineer. Repair and maintenance of electrical systems.

1989 - 1992: Dr. Daniël Den Hoed Clinic in Rotterdam. Employed as a electrical engineer. Repair and maintenance of electrical systems. Building computer networks.

Résumé

1989 - 1989: Borsje & Buisman in Rotterdam. Employed as a electrical engineer. Building low voltage installations for utility and industry.

1986 - 1987: Intern period with FLEC international. Employed as a electrical technician.

1986 - 1987: Intern period with MTS-Zuid te Rotterdam. Employed as a electrical technician.

Interests:

Volkswagen Beetle:

Restoration of a 1972 Volkswagen Beetle. The Beetle was fully disassembled. I will restore, repair or replace all parts. At the moment I am busy with a conversion to a Baja Bug.

Commodore:

Collecting Commodore computer, peripherals, software, books, magazines etc.

Electronics:

I develop and repair electronics for my collection of Commodore computers. Examples are the "hacking" of the C64-DTV and developing of I/O interfaces. Building interface-, video- and data-cables for the Dutch Commodore User Group, which I am a core-member of.

Graphical art:

Drawing mostly technical designs. Programs I use to draw are: AutoCad from AutoDesk, GIMP, Illustrator from Adobe and Sketch-Up from Google.

Web:

In my spare time a maintain and develop my own web pages. I use PHP for the code, MySQL as a database and Smarty for displaying the pages. Examples of my pages can be seen on: <http://www.richardlagendijk.nl>
